

# NVIRO BUILD

construction rehabilitation

**NVIROBUILD IS A NORTHERN CAPE BASED COMPANY  
ABLE TO COMPLETE ANY REHABILITATION WORK IN  
THE MINING & PRIVATE SECTOR.**

---

## **WHAT WE DO**

---

WE PRIMARILY FOCUS ON REHABILITATION OF PROSPECTING SITES IN SOUTH AFRICA.

Our experience in all aspects of mining, combined with our expertise of local requirements, render us the partner of choice for extensive rehabilitation projects.

We specialise in environmental rehabilitation of mining and exploration sites, along with bioremediation and water treatment for various contaminations.

Nvirobuild also stock environmental products and offer a turnkey zero waste to landfill solution.

With our range of bacterial applications, we offer environmentally friendly solutions to previously costly and complicated projects.

Our civil department enables us to be the perfect contractor for constructing and managing waste facilities on site.

## HISTORY

.....

JOHAN LAMBRECHTS SAW A DESPERATE NEED FOR REHABILITATION CONTRACTORS IN THE COMMUNITY.

Since he just retired from the mining sector and had a love for nature, he decided to address the need by founding Nvirobuild. Having experience in environmental management of mine areas for seven years he started to apply this knowledge in assisting with rehabilitation of prospect drilling in the Northern Cape.

In order to strengthen the venture Johan brought his son Garies Lambrechts on board – a skilled contractor in the construction business. Garies has worked on several workshops, conveyors and other construction jobs for 13 years and had valuable experience in both underground and surface construction jobs to offer to the team.

## VISION

.....

- > To be the preferred contractor for rehabilitation in the Northern Cape.
- > Supply quality Environmental Products to clients.
- > Ensuring work is completed on time and on Budget.
- > Providing a world class service.
- > Build a Team of employees that is Trained, Disciplined and Committed to service excellence.

## MISSION

---

### NO DELAYS

Nvirobuild will ensure that clients continue with their projects without any delays.

### QUALITY

We understand that the laws in South Africa determine a good standard of environmental management and that this can halt any business or project if not managed correctly.

### RESPONSIBILITY

Nvirobuild is a responsible contractor able to complete work with environmental management in mind – for this reason we have established an civil department.

### UNIQUE

By combining civil and environmental experience we can offer a unique solution by ensuring that when projects are completed no rehabilitation is needed on the work site.

### HIGH STANDARD

We will ensure that quality of work is of the highest standard.

NVIROBUILD WILL ENSURE THAT CLIENTS CAN  
CONTINUE WITH THEIR PROJECTS WITHOUT  
ANY DELAYS.

---

OUR FUTURE DEPENDS ON  
**REHABILITATION**

## PRODUCTS & SERVICES

---

NVIROBUILD IS ABLE TO ADDRESS ALL ASPECTS OF REHABILITATION PRACTICE FROM PRE-DISTURBANCE TO FINAL RELINQUISHMENT, INCLUDING ON GROUND WORKS AT ANY SCALE.

We provide the following rehabilitation services to enable successful rehabilitation outcomes:

### REHABILITATION

As our primary business is ecological rehabilitation, we are focusing to ensure we deliver the best possible solution for every individual project. Nvirobuild ensures that maintenance on the sites is done up to the point of sign off by the DMR or the client. Nvirobuild also ensures successful rehabilitation / demolition of old building structures and excavations.

### CIVIL CONSTRUCTION

We are able to take on conveyors, workshops, crushers, office buildings, cement slabs etc. We will supply a quality product and give it off in time, our Civil department combined with our Environmental department can provide a unique solution for client.

> continues on page 6

**NVIROBUILD IS ABLE TO ADDRESS ALL ASPECTS  
OF CIVIL WORKS AND IN SOME CASES STEEL  
ERECTION.**

## **PRODUCTS & SERVICES (conti.)**

### **STEEL CONSTRUCTION**

We can do steel construction on any scale.

### **ENVIRONMENTAL PRODUCT SUPPLY**

Nvirobuild has a full range of products available and ready to use. Contact us for a quotation on Oil Spill Kits and all relevant absorbents and products used in workshops, offices. Nvirobuild manufactures a ready to use Bioremediation mix, this mix is ready for use as is. We use the product in our own bioremediation process and achieves great success with it.

**NVIROBUILD**  
ESTABLISHES **LAND  
REHABILITATION  
EXCELLENCE**

## “A MINE BEGINS TO CLOSE THE DAY IT OPENS.”

Decisions made during the mine planning and development phase – and even earlier, during the exploration phase – this has profound effects on the ultimate closure plan, it's cost, and the resulting landscape performance.

These decisions need to be made within a framework of closure planning to realize successful land reclamation.
